ABOUT ME

An industrious and forward-thinking Computer Science undergraduate at the National Institute of Transport (NIT), with a robust foundation in full-stack development, networking, and cybersecurity. Proven ability to design innovative technical solutions—such as localized Linux learning toolkits and secure network management systems—that bridge the gap between education and technology. Holding professional certifications from Google and Cisco, I am committed to leveraging my analytical skills and passion for secure software development to drive technological advancement in Tanzania. I am seeking a scholarship to further my academic journey and contribute meaningfully to the global tech ecosystem.
